- OpenSUSE Linux 11.2 | 1586 | Ubuntu 10.4 LTS

## KEY FEATURES

**COST EFFECTIVE** | Low entry price fits all budgets.

**CBC-MODE** | Military strength AES-256 bit software encryption in CBC mode.

**REGULATORY COMPLIANCE** | Where data encryption is an essential requirement for regulatory compliance, Guardian 2.0 offers the right protection for all data stored on your portable device.

**CAPLESS DESIGN** | Small, portable and no cap to be lost, attach Safexs Guardian 2.0 directly to your lanyard and keys.

**STRONG** | Safexs Guardian 2.0 is forged from stainless steel and built to last.

**APPLICATION INTEGRITY** | Safexs Guardian 2.0 application protects against intentional or accidental virus infection or tampering with DSA and Microsoft Authenticode signatures.

**TIMER LOCKDOWN** | Prevent unauthorised access to your files, while you are away from your computer, the Timer feature locks the Safexs Guardian 2.0 application after a configurable period of time.

**BRUTE FORCE PROTECTION** | Prevents against password guessing attacks by resetting after 10 failed attempts.

A low cost, small and **strong** flash drive with on-board military-grade **encryption** software and security features.

Safexs GUARDIAN 2.0 is a small and portable USB 2.0 flash drive that helps protect your sensitive data via its easy to use drag and drop interface, which allows you to move files and folders between PC, Mac & Linux easily and securely.
