- MAC OSX 10.5+
- OpenSUSE Linux 11.2 | Ubuntu 10.4 LTS

A **Super strong**, fast & portable secure flash drive with on-board military-grade **encryption** software and security features.

## KEY FEATURES

**CBC-MODE** | Military strength AES-256 bit software encryption in CBC mode.

**REGULATORY COMPLIANCE** | Where data encryption is an essential requirement for regulatory compliance, Guardian XT offers the right protection for all data stored on your portable device.

**BRUTE FORCE PROTECTION** | Prevents against password guessing attacks by resetting after 10 failed attempts.

**COMPUTER PROTECTION** | Protect your device and computer from unauthorised access by automatically locking, logging out or shutting down your computer if your device is left unattended.

**SUPER STRONG** | Forged from an ultra strong metal alloy, Safexs Guardian XT will work even in the most extreme environments.

**APPLICATION INTEGRITY** | Safexs Guardian XT application protects against intentional or accidental virus infection or tampering with DSA and Microsoft Authenticode signatures.

**FAST** | Transfer data on and off your device with fast USB 3.0 speeds.

**UPDATEABLE** | Access to future operating system support and new features via website downloads.

Safexs GUARDIAN XT is a fast, small and portable USB 3.0 flash drive forged from a strong customised metal alloy that helps protect your sensitive data via it's easy to use drag and drop interface, which allows you to move files and folders between PC, Mac & Linux easily and securely.

ABOUT CTWO PRODUCTS AB - A market leader in providing customised USB and encryption solutions out of its head office in Malmo, Sweden. Safexs has been deployed worldwide to government agencies, healthcare, education and corporates.
