KEY FEATURES

EASY TO USE | Built for device users with little or no technical knowledge.

QUICK | Typically takes between 2-3 minutes to install Safexs Protector onto your Safexs device.

UPDATE MULTIPLE DRIVES | Easily update multiple drives by ejecting updated drive and replacing with a new one.

USER UPDATEABLE | Safexs can be updated from the comfort of a user's own Windows or Linux based computer.

NO ADMIN RIGHTS | Safexs Protector Installer even works for restricted users.

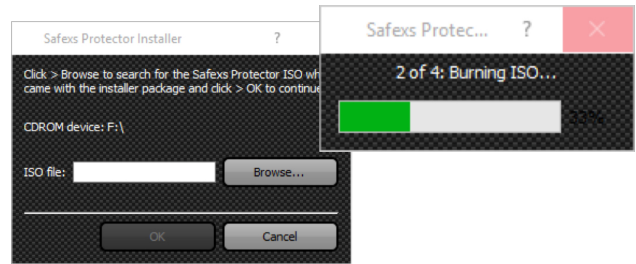

CUSTOMISABLE | Customer chooses which feature application package to purchase and install.

OFFLINE INSTALLATION | An Internet connection is only needed to download the installer package, the application itself runs offline.

LOW COST | Safexs Protector Installer can be purchased at a fraction of the cost of purchasing new hardware.

An application built to extend the life & provide new features for Safexs.

Safexs **PROTECTOR INSTALLER** is a secure application that allows device users or IT Admins to quickly and easily install Safexs Protector security software onto 1 or more Safexs secure USB flash drives, from their Windows or Linux based computer.

ABOUT CTWO PRODUCTS AB - A market leader in providing customised encryption solutions out of its head office in Malmo, Sweden. Safexs has been deployed worldwide to government agencies, healthcare, education and corporates.

AUTHORISED PARTNER

DESIGNED IN SWEDEN

MULTI PLATFORM - Safexs Protector Installer works beautifully on Windows & Linux based machines.
